Arrival & parking

Unlike the other apartments, here parking is conveniently **right outside the house**.

> NOTA The parking is outside the private property, exactly on the opposite side from the entrance gate.

Self check-in & shared spaces

Key collection — you will find the key inside the lockbox located just below the sign that reads “Centro e Spiaggia malachite”.

Respect for neighbours — the entrance shares the stairs and landing with another home. Please never leave personal items, shoes or clothing in these shared spaces, to keep them clear and tidy.

Jacuzzi user guide

The outdoor area with the Jacuzzi is **entirely for your exclusive use**. To enjoy it to the fullest and safely, please follow these simple but essential rules.

No products at all — adding soap, bubble bath, essential oils or creams to the water is strictly forbidden.

Power — the Jacuzzi must always stay on. Never unplug it from the mains. Do not switch off the filter (the button with the wavy lines must always stay on).

Changing the settings — you can adjust the temperature or turn the bubbles on and off. To make any change on the display, press and hold the padlock button for a few seconds to unlock the screen.

If it locks up — if the Jacuzzi freezes and shuts off, do not worry: lift the wooden hatch cover and press the orange button on the main socket.

We wish you a wonderful stay!
